

Logitech G300s USB 2.0 Wired Optical Gaming Mouse

Brand: Logitech

Model: Logitech G300s

Stock: 2-3 Days

SKU: 201599

9 PROGRAMMABLE CONTROLS

Achieve great results with the default configuration straight out of the box, or set up one-button triggers for actions that typically require digging into menus. Put push-to-talk communications in easier reach. Temporarily down-shift DPI. Reassign any game command or multi-command macro to any one of nine programmable buttons with Logitech LGS.

SCULPTED AMBIDEXTROUS SHAPE

Versatile design in a compact shape, this mouse is built for comfort and durability. The balanced shape works for both left and right hands.

PROGRAMMABLE LIGHTING

Assign a unique color and identity to each user profile with up to seven color variations to know what settings are active during game play.

ON-THE-FLY DPI

On-the-fly DPI shifting lets you toggle between two sensitivity settings with a click, from pixel-precise 250 DPI targeting to speedy 2,500 DPI movement. Use LGS to customize the DPI settings to fit your style of play. Also, DPI cycling lets you choose from up to five DPI settings while in-game.

1-MILLISECOND REPORT RATE

Be confident that your every command is executed as quickly as possible. Up to eight times faster than a standard USB mouse, G300S captures your moves as fast as you can make them.

DURABLE BUILD

Our engineers thoroughly test and rate the primary buttons at 10 million clicks, and the feet of travel at 250 km. Able to survive the most intense gaming sessions, G300S will keep going right along with you.
